November 28, 2023

Tim Chan
BART Station Area Planning Group Manager
2150 Webster Street
Oakland, CA 94612

Dear Mr. Chan:

The Unincorporated Alameda County Bicycle & Pedestrian Advisory Committee (BPAC) supports and endorses the Public Works Agency's application to the Safe Routes to BART (SR2B) grant program for the proposed project to construct the continuation of Class II buffered bike lanes and roadways improvements on Norbridge Avenue, between Stanton Avenue and Tyee Court.

The SR2B program aims to enhance access to BART stations by walking and biking. The Norbridge Avenue project aligns perfectly with this objective and will significantly improve the safety and accessibility for cyclists and pedestrians in our community, thereby encouraging more sustainable and active modes of transportation.

As an advisory committee dedicated to promoting bicycling and walking, we recognize the critical importance of such infrastructure improvements. This project will not only create a safer environment for cyclists but also contribute to reducing traffic congestion and making transit use more convenient and safe for all.

The Alameda County BPAC wholeheartedly endorses the Norbridge Avenue project for the Safe Routes to BART grant. We believe that this project will significantly contribute to the goals of BART's Station Access Policy, making it easier and safer for riders to access the system. We eagerly anticipate the positive impact this project will have on our community and stand ready to offer our support in its implementation.

Thank you for considering this application.

Sincerely,

Alameda County Bicycle & Pedestrian Advisory Committee
