OFFICE OF THE COUNTY ENGINEER

CONTRACTOR'S INQUIRY RESPONSES

**THE REPLACEMENT OF GUARDRAILS ON
CROW CANYON ROAD
AT VARIOUS LOCATIONS
FROM SAN SIMON PLACE TO NORRIS CANYON ROAD
EDEN TOWNSHIP, ALAMEDA COUNTY, CALIFORNIA
HSIPL-5933 (165)**

UPDATED (10-31-2023):   *(Legend: T = telephone; PBM = pre-bid meeting;   E = email)*

Inquiry No.	Inquiry	Response
1PBM	It was mentioned that the guardrail posts were installed on CDIH piles. The plan does not show the connections details. Please provide details of how the guardrail posts are attached to the CDIH piles? The (plan) guardrail profiles show the posts are not aligned and are offset with the CDIH piles.	The (pre-bid meeting) citing of "some guardrail posts are installed on CDIH piles" was in error. The posts and CIDH piles are **not** connected. As shown in Sheet 12, the posts and CIDH piles are alternatingly placed. The center-to-center spacing between posts is typically 6'-3". The center-to-center spacing between CIDH piles is also 6'-3" (with an offset of 3'-1 ½" from the posts). .
