      Various improvements/concerns were noted including possibly changing the configuration of the BPAC Committee. Supervisor Miley will convene a town hall work session this fall to create a bike/ped commission.

      Comments were received from committee members Michael Williams and Bruce Dughi.

   Public Comment
   Comment was received from CHP Officer, Daniel Jacowitz.
b. Daniel Woldesenbet, Director – Somerset Avenue Sidewalk Project

Overview of project goals, proposed improvements, design alternatives, and community preferences

Comments were received from committee members Sharon Bohoman and Bruce Dughi.

Public Comment
Comments were received from Paul Smith.

c. Rick Yeung, Traffic Engineer – MTC Complete Street Checklist – Mission Boulevard

Rick Yeung explained the purpose and elements of checklist.

Comments were received from Bruce Dughi and Daniel Leary.

Daniel acknowledged Bellecci & Associates and PWA staff for their contribution to the East 14th project.

Public Comment
CHP Officer Jackowitz acknowledged all the new roadway improvements.

6. Future Agenda Topics

None mentioned

7. Adjournment

Meeting adjourned at 7:23 p.m.

Next meeting – Thursday, September 22, 2022.
East Bay Greenway Multimodal Project

A Presentation to the Unincorporated County Bicycle and Pedestrian Advisory Committee

September 22, 2022
Presentation Contents

- Project Background
- Project Need
- Project Elements
- Public Outreach in Coordination with Alameda County
- Project Schedule
Who is Alameda CTC?

The Alameda County Transportation Commission (Alameda CTC) is an agency that coordinates countywide transportation planning, programs funding for transportation projects, and delivers transportation projects throughout the county. It is governed by a Commission of elected officials from all 14 cities in the county, the five County supervisors, and representatives from the boards of BART and AC Transit. All of our projects and plans are done in partnership with staff at these agencies, with whom we keep regular communication and coordination.

The mission of Alameda CTC is to plan, fund and deliver transportation programs and projects that expand access and improve mobility to foster a vibrant and livable Alameda County.

Project Partners
- City of Hayward
- AC Transit
- BART
- Caltrans
- Alameda County
- City of San Leandro
East Bay Greenway Multimodal Project

• 16-Mile Corridor
• Supports multimodal travel
• Creates continuous north/south facility connecting 7 BART stations
• Implements a safe, high-quality bicycle facility for all ages and abilities
• Reduces Greenhouse Gas Emissions
• Long-term EBGW Phase II: Pending discussions with UPRR, pursue Rail-to-Trail or Rail-with-Trail
Economic Development Context

328 new multifamily dwelling units
38,500 sq ft of new retail

Legend:
- BART Station
- BART (A/B or B/B Ground)
- Jurisdiction Boundary
- Capitol Corridor Station
- Rail Tracks
- Freeway / Arterial
- Water
- Parks / Open Space
- Districts
- Corridors
- Transition Neighborhoods
- Public Building

Development Size - Data from Local Jurisdictions
- <10 Units
- 10-49 Units
- 50-99 Units
- 100-199 Units
- 200+ Units
Need to Increase Multimodal Safety

- 90% of corridor is on Pedestrian High Injury Network
- 50% of corridor is on Bike High Injury Network
E. 14th/Mission Bikeway Design Segments

- Speeds faster in off-peak hours
- Potential to lower speeds to 30 MPH through AB 43

**East Bay Greenway Multimodal Project**
Project Elements
Protected Bikeways

Source: Alameda CTC
For illustrative purposes only.

Source: NACTO

Source: Hoodline
Protected Intersections

Signal Considerations:

- Use of bike signal requires protected phase
- If no space for RT lane, other options include using Leading Ped/Bike Interval with no right turn on red and allowing a permissive through/ right turn phase
- Modified R10-15B Turning Vehicles Yield to Peds and Bikes

Source: ProtectedIntersection.com
Bus Stop Types – Floating Bus Stops

Notes:
1. Where the context allows, it may be possible to bend the bikeway into the existing sidewalk to make space for a full bus island.
2. Bike lane can be raised or at street level depending on space and context.
3. Sidewalk may be narrowed to create space for bikeway to continue through stop.

Crosswalk situated behind bus stop provides access to stop (may be only access point)

Bikeway fully separated from sidewalk and bus island, limiting conflict points and bus leapfrogging.

Stop Amenities

Bicyclists yield/stop when buses board / alight

Passenger Waiting Area

Railing protection at grade separation

Sidewalk

Source: AC Transit Multimodal Corridor Guidelines
Potential Economic Development Elements

- Streetscape and landscaping
- Identity and branding
- Bus parklets
- Street art
- Flexible use of parking and parking lots
- Wayfinding and gateways
- Parking management and TDM
Stakeholder Outreach Timeline

- **Introduce East Bay Greenway project to community- Popup Events**
  - Castro Valley Farmers Market – Saturday, August 6
  - REACH Ashland Youth Center, Health and Resource Fair – Wednesday, August 10
  - Bayfair Farmers Market – Saturday, August 13

- **Door-to-Door Business Outreach and Residential Outreach**
  - Business owners survey
  - Residential Mailer with Online Survey

- **Stakeholder Outreach**
  - Eden Area MAC Standing Meeting – Tuesday, November 8, 2022
Project Implementation Timeline

• Conceptual Design: Late 2022 – Early 2023
• Environmental Clearance – 2023
• Design (pending Constructing Funding) – 2024
• Construction (pending Funding) - 2025
Thank You
