**ALAMEDA COUNTY
TRAFFIC CALMING EVALUATION REQUEST**

The purpose of this form is for residents to request Alameda County Public Works Agency to perform appropriate traffic studies and investigate the implementation of traffic calming measures to mitigate traffic concerns such as motorist speed and bypass traffic on a particular street within a neighborhood. If Public Works determines that traffic calming improvements are both feasible and necessary, then we may proceed to the next steps as outlined in the *Alameda County Neighborhood Traffic Calming Program*. Please email TrafficEng@acpwa.org for any questions or if further assistance is required.
