

EAST LEWELLING BLVD.

IMPROVEMENT PROJECT FROM
MEEKLAND AVENUE TO LANGTON WAY

PROJECT FACT SHEET

PROJECT OVERVIEW

East Lewelling Boulevard is an arterial road in Ashland, an unincorporated community in the County of Alameda. This project will increase safety and improve multimodal access on East Lewelling Boulevard from Meekland Avenue to Langton Way.

The proposed improvements will enhance the livability of the community and provide substantial improvements to the transportation system whereby users, especially residents in the vicinity of the project area, would benefit. There are two schools within half a mile of the project limits. This project will make alternatives to car travel safer and more comfortable, in turn reducing congestion and improving health and the environment.

PROJECT FEATURES

- New concrete sidewalk, curb and gutter on both sides of the street
- Curb extensions (bulb-outs) to decrease crossing distance and improve pedestrian visibility
- New bicycle facility
- Stormwater drainage improvements
- Stormwater runoff treatment
- Street trees
- Pavement rehabilitation
