Nighttime Work Planned for Hesperian Boulevard Corridor Improvement Project

UNINCORPORATED ALAMEDA COUNTY – Between **May 16th and June 17th** --the Contractor, under the direction of Alameda County Public Works Agency (ACPWA), will be paving Hesperian Boulevard between the I-880 overcrossing (near Embers Way) and A Street. The paving work will take approximately five weeks to complete and will be performed at night between the hours of **7 p.m. to 5 a.m.**

ACPWA determined that allowing night work is in the interests of the community for the following reasons:

- Some work will require driveway closures, which is preferable if done at night.
- Night work is generally less disruptive to traffic and will result in smaller traffic backups than daytime work.
- Night work will generally be less disruptive to local business activities.

During the night time paving process, every effort will be made to minimize impact on residents and businesses, including:

- Residential driveways will be closed no earlier than 7 p.m.
- Access to commercial driveways will be maintained until close of business.
- Each property will likely be affected two nights (one during the deep lift phase, one during the final grind and pave phase)
- During the grind and pave phase, there will be day work *and* night work.
- Residents will be notified via door hanger three-days before closure of their driveway, if required.

Please note that the schedule may change due to inclement weather, equipment breakdowns, and other unforeseen circumstances. For more information on the project features, visit the project page at Hesperian Boulevard Corridor Improvement Project web page (<https://bit.ly/hesperianpr>), or email info@acpwa.org, or call the construction hotline at (510) 670-5591.
