Undergrounding of 100 Poles

Underground **Overhead** Utilities

Enhance Crosswalk

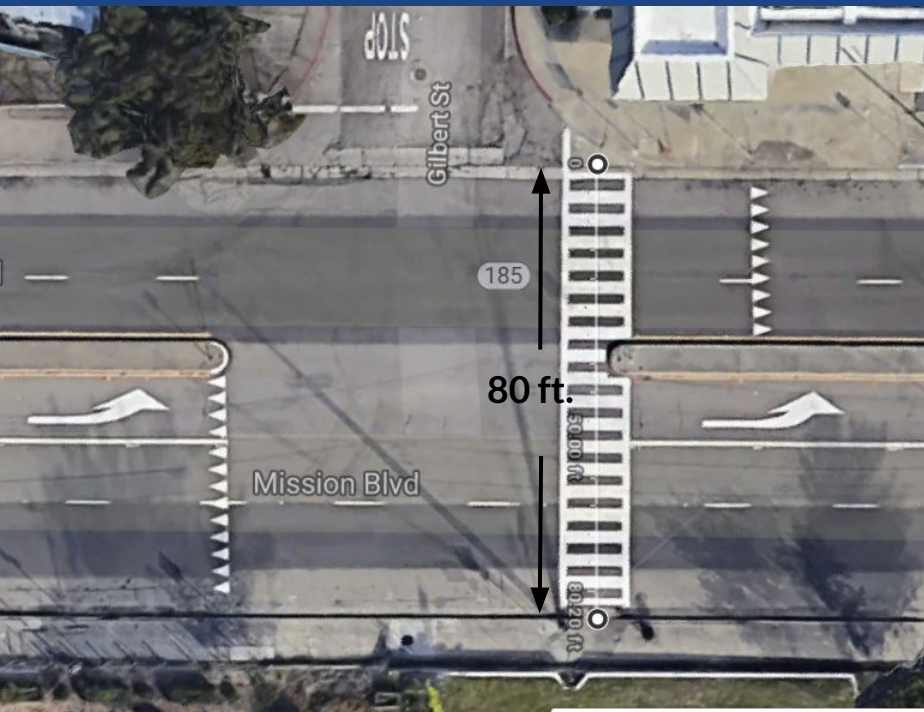

Mission Blvd at Grove Way

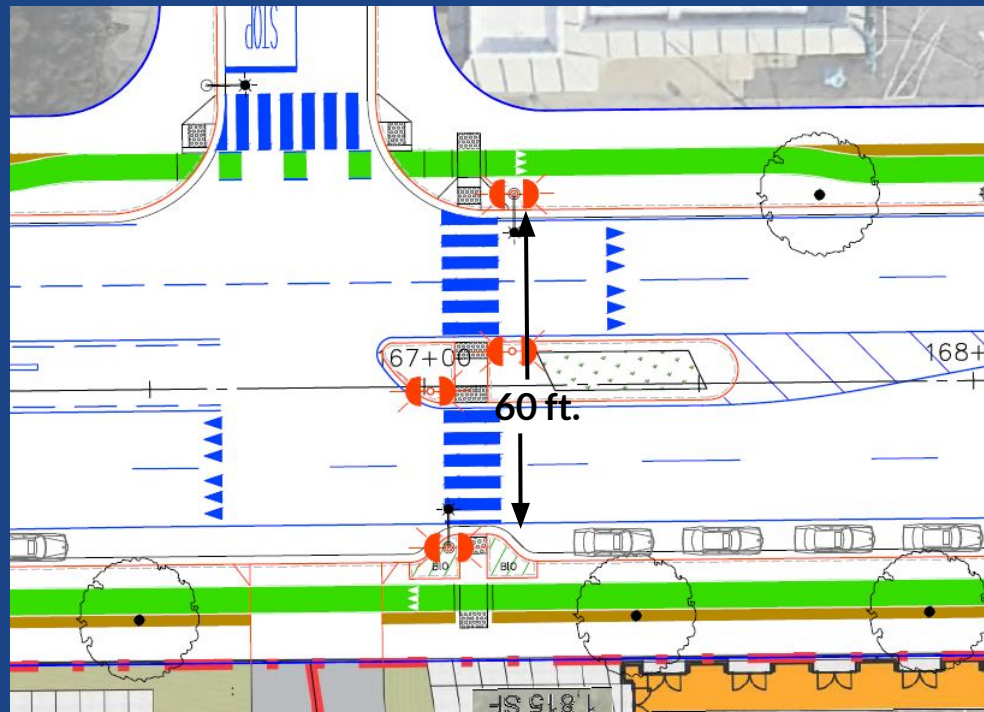

High Visibility Crosswalk

Reduce Crossing Distance

Existing Crossing Distance = 80 ft

Proposed Crossing Distance = 60 ft

With Pedestrian Refuge Space

Rectangular Rapid **Flashing Beacons**

Examples

Add **Bicycle Lane**

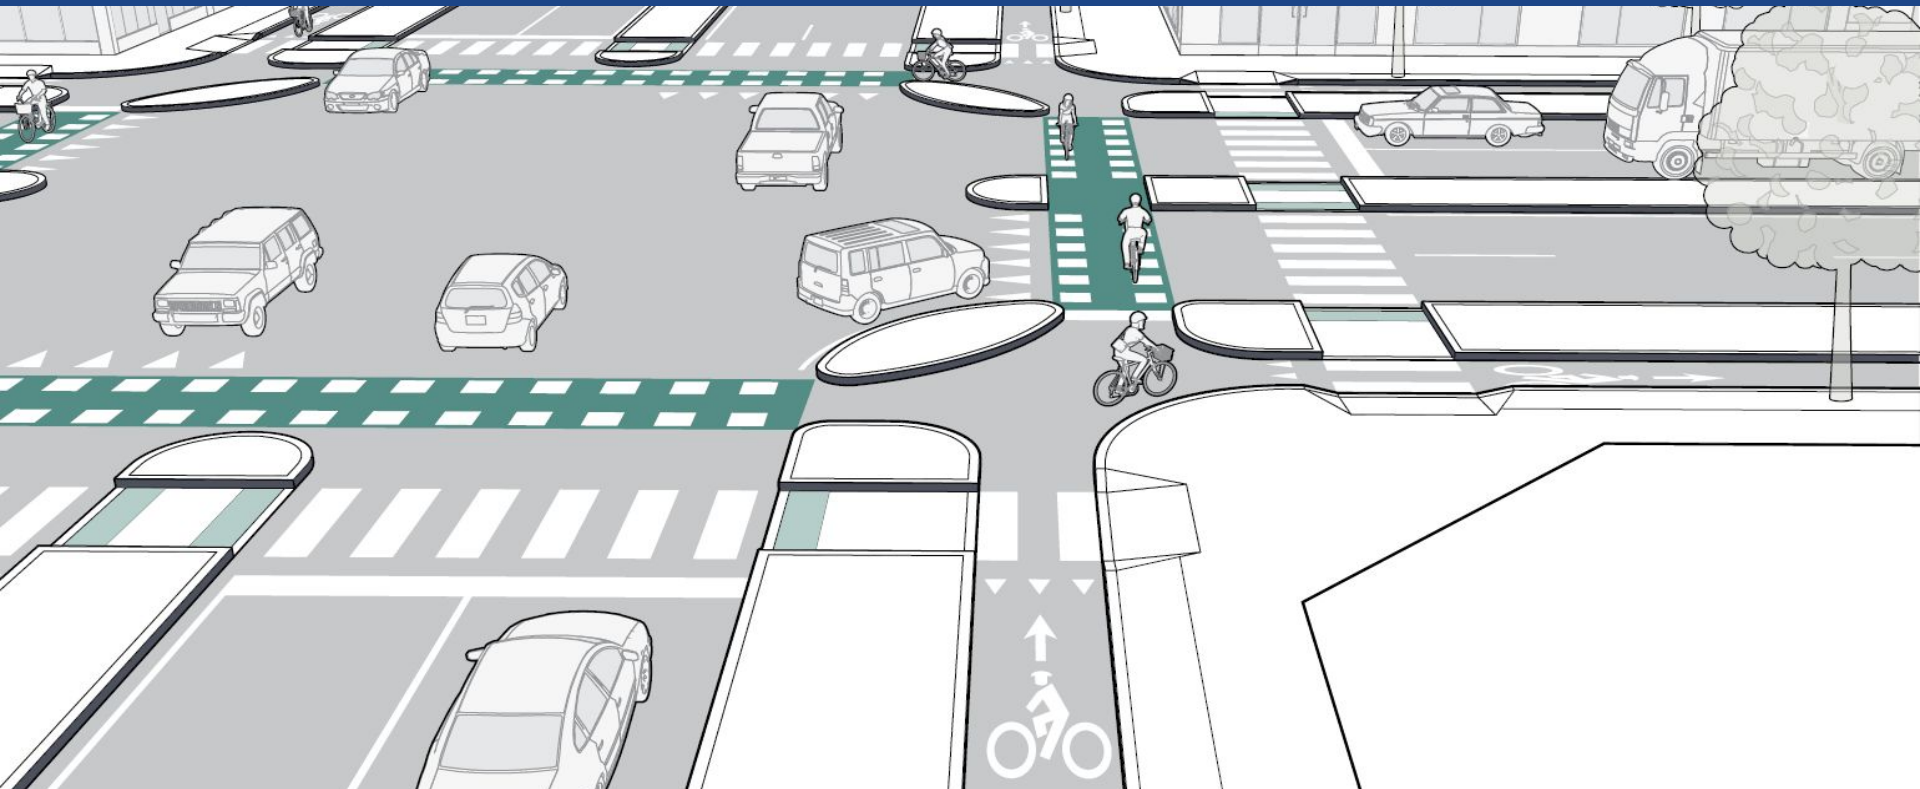

Existing Bike Lanes - None

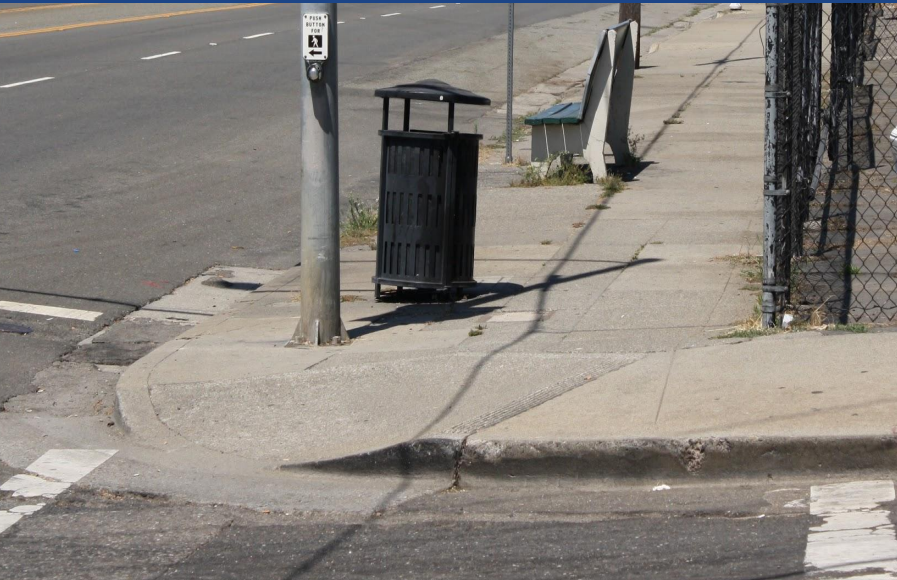

Proposed Bike Lanes - Separated

Bellecci & Associates

Improve Bicycle Safety at Intersections

Improve Curb Ramps

Mission Blvd at Grove Way

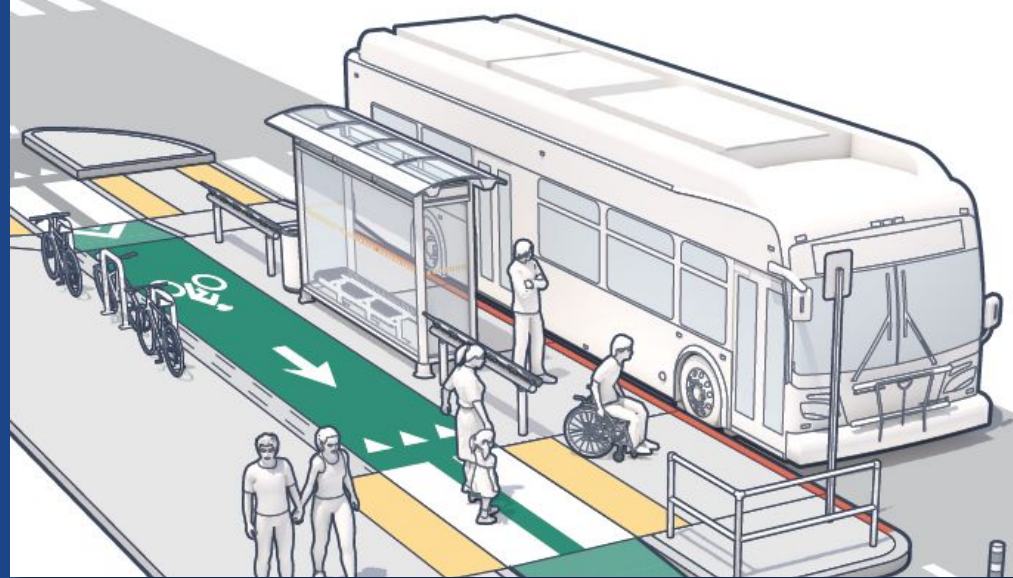

Two Curb Ramps at Each Corner

Improve Transit Stops

AC Transit Bus Stop at Grove Way

Proposed Bus Bulbs

Add Stormwater Treatment Planters

Treatment of Stormwater Runoff

Site Furnishings

Incorporating **Artwork**

The Alameda County Public Art Program is based on the belief that the arts and creativity are an essential part of every successful and thriving community. We hope the artwork will generate positive, uplifting art experiences that create a sense of place and broaden appreciation of public spaces.

For this project the Public Art will:

1. Support the overall project goals.
2. Reflect and highlight the special characteristics of this community.
3. Include opportunities for community engagement and input.
4. Be incorporated into the functional elements of the corridor to be cost effective, durable and easy to maintain.

Schedule

WE ARE HERE!

Summer 2018 – Summer 2019

**Preliminary
Design**

Fall 2019

**Community
Meeting**

Fall 2019 – Spring 2020
