ROAD REPAIR PROJECT

PAVEMENT MAINTENANCE

Public Works Agency

— Alameda County —

399 Elmhurst Street, Hayward, CA 94544

Notice to Property Owners/Residents

Your property is located on or near a street that is scheduled for slurry sealing as part of Alameda County's 2025 Streets Rehabilitation and Preventative Maintenance Program.

Scheduled for Summer/Fall 2025

The construction work will be completed in three phases: pavement repairs, slurry sealing, and striping the roadway.

The anticipated work hours will be between 8:30 AM and 4:30 PM.

Prior to the start of each phase, you will receive notices from the contractor requesting that you park your vehicles off the street so that the work may be performed. "NO PARKING" signs will also be posted 72 hours prior to the actual start of each phase of work on your street.

During construction, vehicular access in the area will be limited at times during the execution of the project; however, pedestrian access will be maintained at all times. Refrain from watering lawns to prevent runoff onto the street. The project locations are shown on the back of this notice.

Contractors will follow the health and safety protocols of the County Health Order during construction.

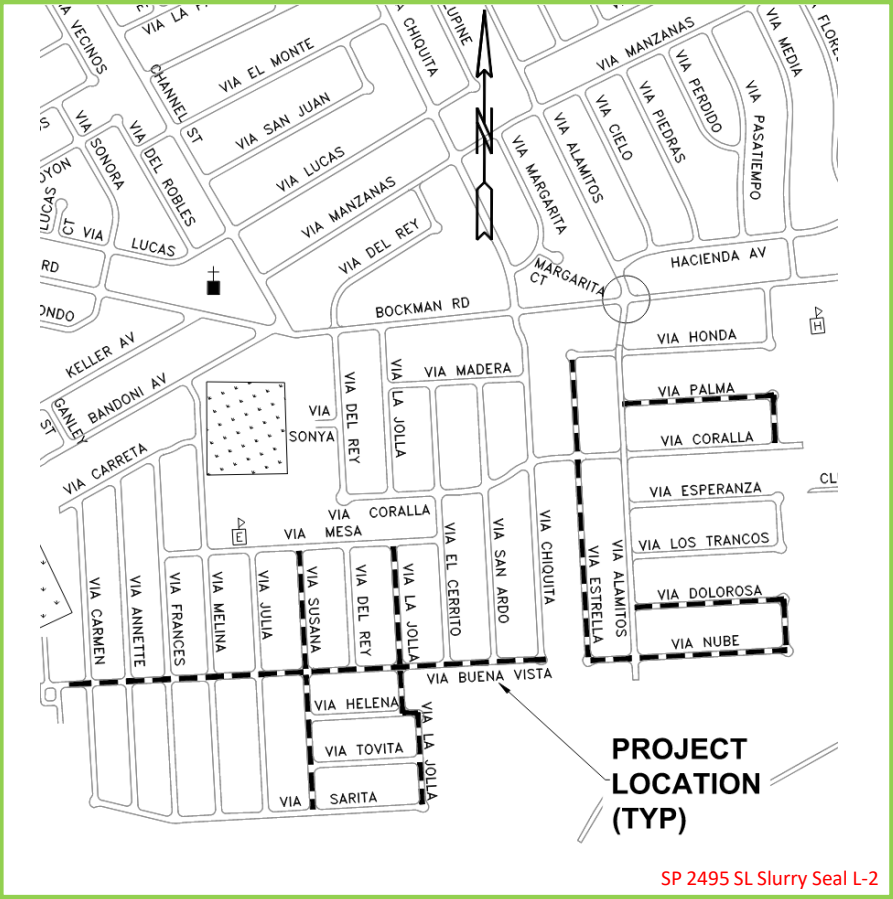

For more information,
call (510) 670-5591, email info@acpwa.org
or visit www.acpwa.org.
